General

We hope that you have enjoyed The Gunpowder Plot and will come back for more. Please note that "Just For Fun" entries are still available so if any of your friends were interested but left it too late, they have only to drop us a line. Perhaps there is someone you dislike enough to give it to them for Christmas or their Birthday?

Errors We believe that the only significant error to come to light was the spelling mistake in the anagram; who would believe us if we tried to suggest it was deliberate?
