Comment Opinions heard so far suggest that the 1978 Gunpowder Plot has been much more difficult than in 1977 - we would be very glad to hear your views on this and whether you think it should be as hard as this in future. We would also like to know if the rather small part that ITGF played this year was an improvement or not. Any constructive comments would be most welcome, but please, no moans about the interpretation of the odd lost mark.
